

Maxsil Silica Tape is a woven product manufactured from texturized amorphous silica filament fiber. The tape has a continuous service temperature of 2000°F and is strong, flexible and has better abrasion resistance than traditional silica fiber tapes. Excellent for furnace door seals, strip curtains, wrapping of hose, electrical cables, pipes, etc.

<b>Weave</b>	Plain
<b>Thickness</b>	0.065" (+/- 10%)
<b>Width</b>	1" – 4" Standard Other widths available upon request (minimums will apply to special widths)
<b>Roll Length</b>	100 feet
<b>Service Temperature</b>	2000°F
<b>Spec for PSA:</b>	
Total Thickness (not including liner):	3.2mil
Adhesive Thickness (liner side):	1.25 mil
Adhesive Thickness (exposed side):	1.45mil
Carrier Thickness (polyester film):	0.5mil
Release Liner Thickness (60# kraft):	3.5mil
Adhesive Color:	Clear Amber
