

Style MM630U-50: VR1200 Fabric

0.022" Thick

REVISED: SEPTEMBER 6, 2011

This product offers superior strength and abrasion resistance even at temperature.

BASE MATERIAL

Service Temperature: 1200°F (Continuous)

Melting Point: 2400°F

FABRIC

Weight: 19 oz/sq yd

Weave: Twill 1/3

Warp: 18 ends/in

Fill: 18 ends/in

Construction: Continuous Filament

Width: 50"

Thickness: 0.022"

Sizing Type: AminoSilane

Breaking Strength: Warp N/25MM >6000; Fill N/25MM >3000

Moisture Content: <0.30

LOI, also sizing content: 0.40 - 0.60

Combustability: Pass

UV Stability: 6

Color Fastness: 6
